2009-2019 - High school №12.
Astana city

2020-2022 - Kazakhstan
International Linguistic
College "Interpreter English-
Russian"

Work experience

From 2021 till 2022 I started tutoring English and creating my own lessons. I tutored online for adults, teenagers and kids.

Usually I worked in the morning and evening (before and after college).

I have earned big experience and new skills while working like this. For example now I am great at time management ,know how to find the right way for each student , came up with my own methodes of teaching.

After I graduated in 2022 I started working at the offline English language center as an English teacher. I worked with big groups of 5-10 people and individual students as well. I developed my public speaking skills so well and learned how to work with some kind of different people. I was also doing so many free speaking clubs , so students could develop there speaking and listening skills. I worked a full-time job from 10 am till 9 pm from monday till saturday. Unfortunately i had to quite that because of low salary
